Affirmation of Commitment to Diversity

At PA Virtual, we embrace and support all students, families, and employees who align with our policies and values. We believe diversity enriches our educational experience, and we strive to create a community that values differences across protected categories such as race, gender, identity, and more.

We are committed to fostering cultural proficiency by:

- Representing diverse groups respectfully in our curriculum,
- Recognizing contributions of various cultures through teaching and dialogue,
- Promoting understanding of cultural norms, and
- Creating a safe, inclusive space free from discrimination and bullying.

Our goal is to ensure all students can safely access quality K-12 education while prioritizing social and emotional well-being. Supported by our Board of Trustees, we dedicate resources to uphold this commitment alongside specific policies.
